

The Infectious Diseases portfolio from Roche

Covering all steps – from screening to patient management

Viral hepatitis

Elecsys immunoassays

Anti-HAV total	●	●
Anti-HAV IgM		●
HBsAg	●	●
HBsAg confirmatory		●
HBsAg quantitative		●
Anti-HBs		●
Anti-HBc	●	●
Anti-HBc IgM		●
Anti-HBe		●
HBeAg		●
Anti-HCV	●	●

Molecular assays

HBV DNA quantitative		●
HCV RNA qualitative		●
HCV RNA quantitative		●
HCV genotyping		●
MPX (HIV/HCV/HSV)	●	
DPX (B19V/HAV) ³	●	

STDs

HIV combi PT	●	●
HIV Antigen		●
HIV Antigen confirmatory		●
Syphilis	●	●
Syphilis TPLA ²	●	●
Syphilis RPR ²	●	●
HSV-1 IgG	●	●
HSV-2 IgG	●	●
HTLV 1+2 ¹	●	●

CT DNA	●	●
CT/NG DNA	●	●
HSV1 and HSV2 DNA ¹		●
HIV RNA quantitative		●
HIV RNA qualitative		●
HPV DNA	●	
HPV genotyping	●	
MPX (HIV/HCV/HSV)	●	

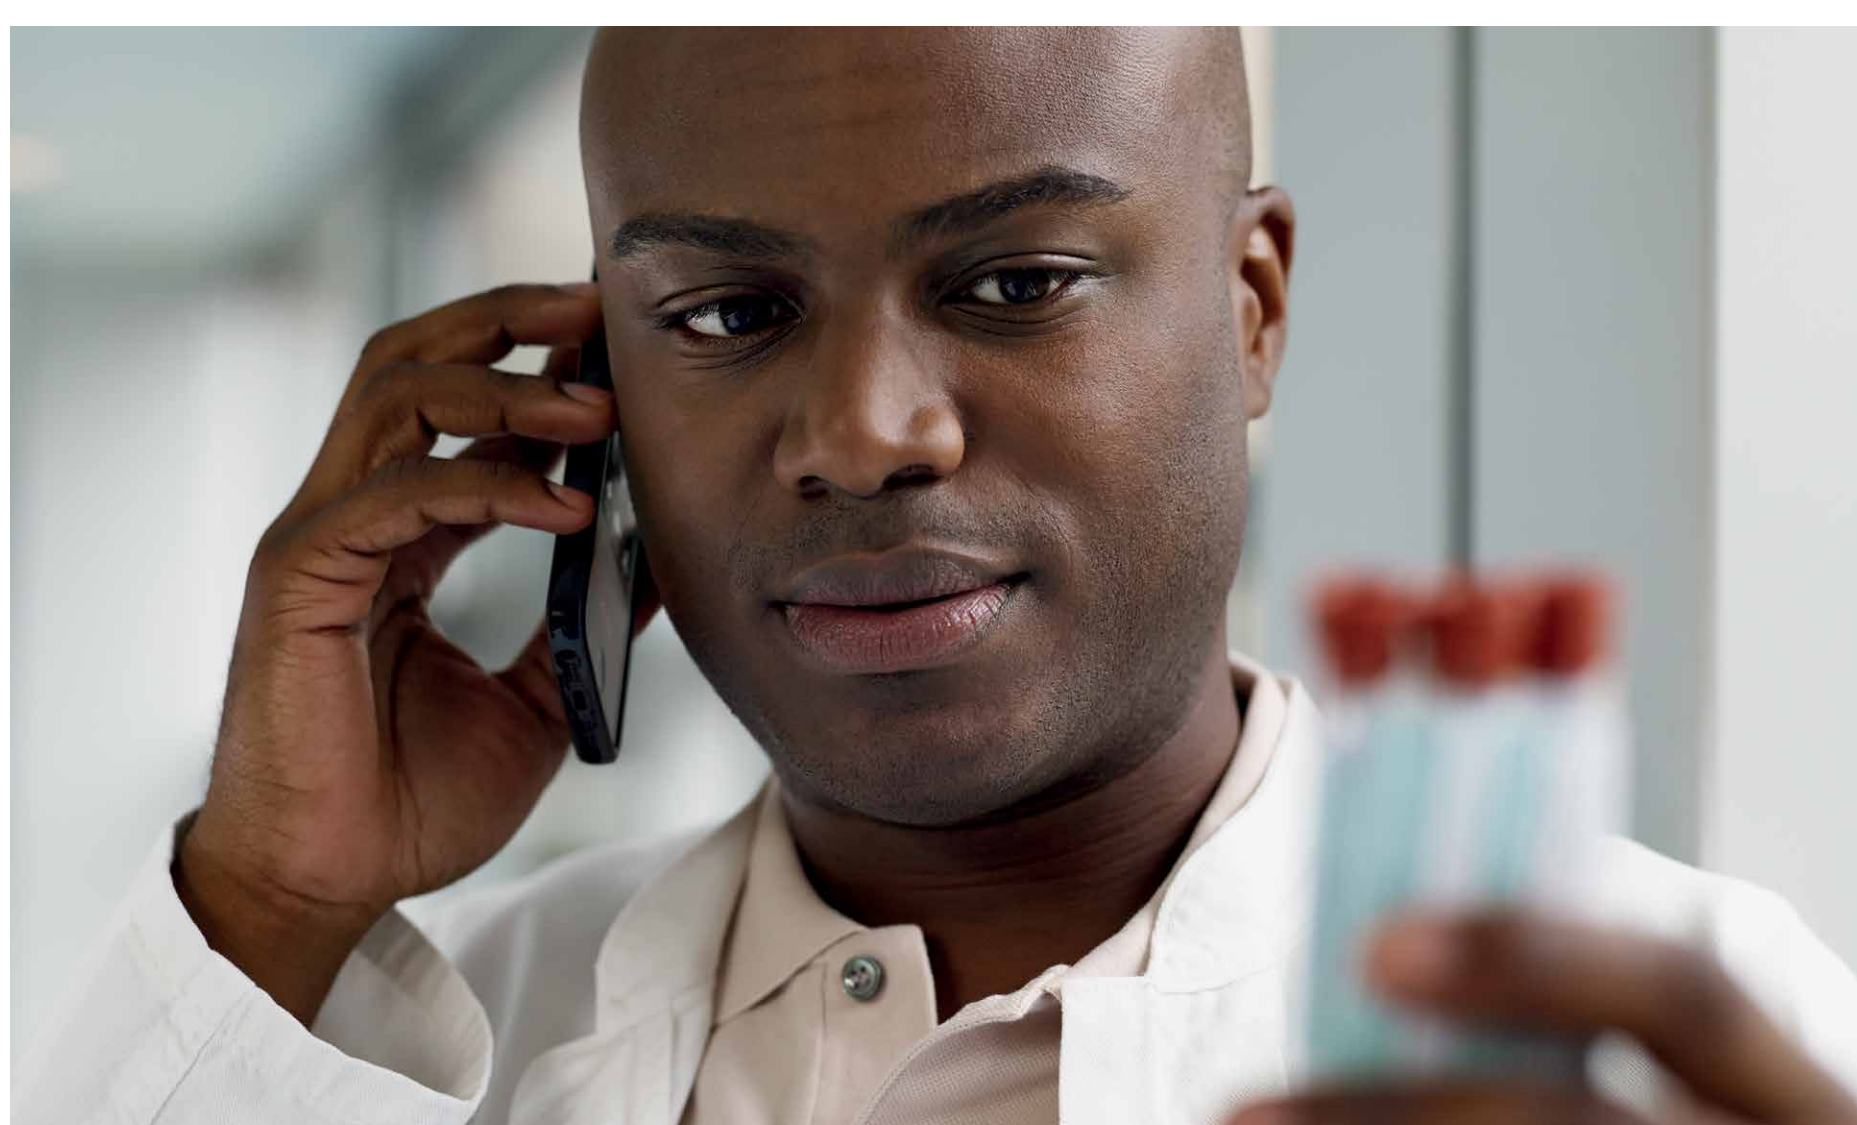

TORCH

CMV IgG	●	●
CMV IgM	●	●
CMV IgG Avidity		●
HSV-1 IgG	●	●
HSV-2 IgG	●	●
Rubella IgG	●	●
Rubella IgM	●	●
Toxo IgG	●	●
Toxo IgM	●	●
Toxo IgG Avidity		●
Syphilis	●	●
Syphilis TPLA ²	●	●
Syphilis RPR ²	●	●

CMV DNA quantitative	●	●
----------------------	---	---

Others

Chagas ¹	●	●
---------------------	---	---

C. Difficile DNA		●
MRSA DNA	●	
MRSA/SA DNA	●	
MTB DNA		●
MAI DNA		●
Sepsis		●
VRE ³		●
West Nile Virus	●	

Part of the Roche blood screening panel, ¹ Under development, ² Clinical Chemistry assay (production by Sekisui, supplied by Roche Diagnostics), ³ For Research use only. Please check with your local Roche representative on the availability of the assays and tests in your country.
